

*Creech is where the killer drone program started—
Creech is where we shall stop the drone violence!*

On **March 4th** we'll vigil for four hours, communicating peacefully and symbolically with the drivers in traffic outside Creech Air Force Base. On **March 5th** we'll do three hours of nonviolence training, so that everyone will be ready to nonviolently, lovingly stop drone killings on **March 6th**, when Creech should shut down for the day of peace.
